8	Screen Inventory	Complete list of all 45 screens with entry points

1 — Flow Overview

Entry points, role mapping & navigation patterns

App entry points

App Launch

- - Returning user (valid token stored)
 - ■■■ Home screen for their role
 - - New / logged-out user
 - Landing / Onboarding screen
 - Browse as guest (partial access)
 - Login
 - Register
 - As Customer
 - As Shop Owner

Role to home screen mapping

Role	Home screen after login
Customer (guest)	Browse screen — prices blurred
Customer (logged in)	Browse screen — full access
Shop Owner	Shop Dashboard
Association Admin	District Dashboard
Super Admin	Super Admin Dashboard

Navigation patterns

- Mobile (Flutter): Bottom navigation bar for primary sections. Stack navigation within each section.
- Web (Next.js): Top navigation bar for customers. Sidebar navigation for shop owner and admin panels.
- Deep links: `platform.com/shop/:slug` and `platform.com/vehicles/:id` open directly to the correct screen.

2 — Shared Screens

Used across multiple roles

S1

Splash Screen

Shown to

- All users on app launch

Contents

- Platform logo and name (centred)
- Tagline: Find your next ride
- Loading indicator while auth token is checked

Logic

- Check for stored JWT refresh token
- Valid token: auto-login, route to role home screen
- No token / expired: route to S2 Onboarding

S2

Onboarding / Landing Screen

Shown to

- New and logged-out users

Contents

- Hero illustration or vehicle imagery
- Platform name and tagline
- Three buttons: Browse vehicles (guest), Log in, Register

Actions

- Browse vehicles: C1 Browse Screen (guest mode)
- Log in: S3 Login Screen
- Register: S4 Role Selection Screen

S3

Login Screen

Contents

- Phone number input
- Password input
- Forgot password link
- Register link

Validation

- Phone: 10-digit Indian mobile number
- Password: minimum 8 characters
- Wrong credentials: inline error message

Actions

- Successful login: route to role home screen
- Forgot password: S5 Screen
- Register: S4 Role Selection

S4

Role Selection Screen

Contents

- Two large option cards: I'm looking to buy (customer) / I own a vehicle showroom (shop owner)
- Brief description under each card

Actions

- Customer card: S6 Customer Registration
- Shop Owner card: S7 Shop Owner Registration

S5

Forgot Password Screen

Flow

- Enter phone number, tap Send OTP
- OTP verification (S5a): 6-digit input, 60-second timer, Resend link
- Enter new password (S5b)
- Success: back to S3 Login with success toast

S6

Customer Registration Screen

Contents

- Full name, phone number, password, confirm password
- District / city selector (optional)
- Create account button

Validation

- All required except district
- Passwords must match
- Phone must be unique

Flow

- Submit: OTP verification (S5a)

- Verified: C1 Browse Screen with welcome modal

S7

Shop Owner Registration Screen

Contents

- Personal details: name, phone, password
- Shop details: shop name, district, state, address, GST number
- Verify GST & Create Account button

Flow

- GST passed: account created, 30-day trial, route to SH1 Dashboard
- GST failed: inline error message
- GST API error: retry prompt

S8

Notification Centre Screen

Contents

- All notifications in reverse chronological order
- Each item: icon, title, body, relative timestamp, unread dot
- Mark all as read button

Tap actions

- New enquiry: open chat thread
- Price drop: open vehicle detail
- RC transfer update: open RC tracker
- Subscription reminder: open subscription screen

S9

Settings Screen

Contents

- Profile section: name, phone, edit profile link
- Notification preference toggles (price drop, nearby vehicles, test drive reminders, announcements)
- Language selector (English at MVP)
- Change password, log out, app version, links

3 — Customer Flow

12 screens: C1 to C12

C1

Browse / Home Screen

Entry

- After login or guest browse

Layout

- Top search bar + filter chips row + vehicle card grid (2 cols mobile, 3-4 web)

Top bar

- Platform logo/name
- Search icon (expands)
- Notification bell with badge
- Profile avatar

Filter chips

- All, Bikes, Scooters, Cars, Autos, Commercial
- Location chip (current district)
- Price chip (opens range slider)

Vehicle card

- Primary photo
- Make, model, year
- Engine CC, fuel type
- Price (blurred for guests)
- Shop name + verified badge
- Heart (wishlist toggle)

Featured section

- Horizontal scroll row: Featured near you (premium shops)
- Only visible to logged-in customers with notifications on

Guest edge cases

- Blurred price tap: login prompt modal
- Heart tap: login required

C2

Vehicle Detail Screen

Entry

- Tap from browse grid, search, wishlist, or deep link

Photo gallery

- Horizontal swipeable photos
- Photo count indicator (e.g. 3/8)
- Primary photo shown first

Vehicle header

- Make, model, variant
- Year, CC, fuel type, colour
- Condition grade badge A/B/C (v2)
- Asking price (blurred for guests)

Details section

- Engine CC, BHP, transmission
- Insurance expiry (alert icon if < 30 days)
- Body type, colour, odometer, RC status

Shop info strip

- Logo, name, verified badge, rating
- District, state
- View shop link

Action buttons

- Primary: Enquire (login required)
- Secondary: Book test drive (if enabled)
- Icons: Heart (wishlist), Share, Add to compare

EMI Calculator

- Vehicle price (pre-filled, editable)
- Down payment, tenure (12-60 months), interest rate
- Live monthly EMI calculation
- Total interest and total payable shown

Edge cases

- Vehicle sold: sold banner, enquire hidden
- Shop inactive: inactive banner, enquire disabled
- Insurance expired: red alert badge

c3

Search & Filter Screen

Entry

- Search icon from any screen

Search bar

- Auto-focus on open
- Real-time suggestions (make, model, district)
- Clear button

Filters

- Vehicle type: multi-select chips
- Location: district multi-select
- Price range: dual-handle slider
- Year range selector, fuel type chips
- Sort: Newest / Price low-high / Price high-low / Most enquired

Results

- Count shown: 124 vehicles found
- Same card format as C1
- Infinite scroll / pagination

C4

Shop Profile Screen

Entry

- Tap from vehicle card, vehicle detail, or shareable URL

Shop header

- Logo, name, verified badge, premium badge
- District, state, rating + review count
- Total active listings count
- Share button (copies URL)

Stats row

- Vehicles listed, confirmed sales, member since

Vehicle grid

- Instagram-style 3-column square grid
- Sold vehicles: grey Sold overlay

Guest view

- Photos and make/model visible
- Price blurred: Login to see price
- Banner: Sign up to see prices and contact this shop

Inactive banner

- Shown when subscription expired
- Enquiries not available notice

C5

Test Drive Booking Screen

Entry

- Book test drive button on C2

Contents

- Vehicle summary card (photo, make/model, price)
- Mode selector: At showroom / Home delivery / Both
- Date picker (next 30 days)
- Time slot: morning / afternoon / evening
- Address input (home delivery only)
- Optional notes

Flow

- Submit: Booking request sent success screen
- Shop owner will confirm or suggest alternative time
- Notification sent when confirmed

Edge cases

- Test drives disabled: screen unreachable
- Pending booking exists: prompt to view existing

C6

Chat Screen

Entry

- Enquire on vehicle detail, or tap thread in C7

Header

- Back button, vehicle thumbnail and make/model
- Shop name (tappable), phone icon after reveal

Messages

- Real-time Firebase chat
- Customer: right-aligned accent colour
- Shop: left-aligned surface colour
- Timestamps + seen indicator

Phone reveal

- Shown once at start of first session
- Tap to reveal shop phone number
- Call button appears after reveal
- Persists across sessions

Edge cases

- Shop inactive: input disabled
- Vehicle sold: banner shown

C7

Enquiry Inbox Screen

Contents

- All enquiry threads sorted by last message time
- Each item: vehicle photo, make/model, shop name, last message preview, timestamp, unread badge, status tag

Status tags

- New / In discussion / Test drive scheduled / Sold (set by shop owner)

C8

Wishlist Screen

Contents

- Grid of saved vehicles (same card format as C1)
- Price dropped badge on applicable cards
- Empty state message

Actions

- Tap card: C2 Vehicle Detail
- Tap heart: remove with confirm prompt

C9

Vehicle Comparison Screen

With 2-3 vehicles

- Side-by-side columns per vehicle
- Rows: price, CC, BHP, fuel, transmission, colour, year, insurance expiry, condition grade (v2), shop name
- Differences highlighted with amber background

Empty state

- Placeholder cards: Add a vehicle to compare
- Prompt to browse and add

C10

Shop Reviews Screen

Contents

- Shop name and overall rating
- Rating breakdown bar chart (5-star to 1-star)
- Write a review button (only if customer has enquired)
- List of reviews: name, rating, text, date

Write review flow

- Star rating selector (tap stars)
- Text area: Share your experience
- Submit: Review posted toast

c11

Customer Profile Screen

Contents

- Profile photo, full name, phone number, edit button
- My enquiries, wishlist, compare vehicles, test drive bookings, RC transfer status sections
- Settings, log out

c12

- Unlimited listings, 15 photos, top search, push to nearby, chat, phone reveal, Featured badge

Payment history

- Date, plan, amount, status (paid/failed)
- Download invoice per row

Actions

- Subscribe/Upgrade: Razorpay payment sheet
- Success: activated toast
- Failure: error toast with retry

SH11

RC Transfer Tracker Screen (Shop Owner)

Contents

- Vehicle make, model, registration number
- Buyer name

5-stage stepper

- Stage 1: Documents collected
- Stage 2: Form 29/30 submitted at RTO
- Stage 3: Hypothecation cleared (skip if no loan)
- Stage 4: RC copy received
- Stage 5: Transfer complete — triggers buyer notification

Actions

- Mark done on current stage: advances, customer notified, timestamp recorded
- Add notes: saved to RC transfer record

5 — Association Admin Flow

3 screens: AA1 to AA3

AA1

District Dashboard Screen

District header

- Admin name and district name
- Serving [District] district

Metric cards

- Total shops in district
- Active subscriptions
- Shops in trial
- Total confirmed sales (count only — no revenue)

New shop alerts

- Shops registered in last 7 days pending review
- Each: shop name, GST number, date, Review button

All shops list

- Searchable by name
- Each: name, verified badge, subscription status, sales count, member since

Not visible to Association Admin

- Vehicle prices, subscription amounts, revenue or financial data, enquiry details

AA2

Shop Detail Screen (Admin View)

Contents

- Shop name, logo, GST number
- District, address, phone, member since
- Subscription status + plan name
- Verified badge status, confirmed sales count, active listings count

Vehicle grid

- Same grid as shop profile — prices visible to admin

Actions

- Flag this shop: AA3 Flag Shop Screen
- View public profile: opens C4

Contents

- Shop name (pre-filled, read-only)
- Reason: Suspected fake business, GST mismatch, Fraudulent listings, Customer complaints, Other
- Details text area (required)
- Submit flag to super admin button

Flow

- Submit: flag created, super admin notified
- Success message, back to AA1 Dashboard

6 — Super Admin Flow

10 screens: SA1 to SA10

SA1

Super Admin Dashboard

Platform health cards (2x4)

- Active shops, shops in trial
- Total vehicles listed, total enquiries
- Total confirmed sales, active subscriptions
- Expired subscriptions, verified badges awarded

Alert sections

- Open flags count: review link
- Expiring subscriptions count
- Stuck RC transfers count
- New shops today count

Activity log

- Shop registered, subscription expired, flag submitted — with timestamps

- Dashboard, Shops, Subscriptions, Flags & Reports, Association Admins, Announcements, GST Log, Settings

SA2

All Shops Screen

Search & filter

- By shop name, GST, district
- Status: active/trial/expired/suspended
- District, state, plan, verified filter

Each shop row

- Name, logo, GST, district, plan, status badge, verified badge, sales count, registered date

Row actions

- View, Suspend, Extend subscription

SA3

Shop Detail Screen (Super Admin View)

Extra vs AA2

- Full subscription history (plan, amount, dates, payment status)
- All flags on this shop

- GST verification log entry
- Enquiry count total

Actions

- Suspend/Activate shop
- Override subscription (SA5)
- Resolve flags
- Remove verified badge (exceptional)

SA4

Flags & Reports Screen

Tabs

- Open, Under review, Resolved, Dismissed

Each flag

- Shop/listing name, flagged by, reason, date, status badge, Review button

Review modal

- Full flag details, link to view shop
- Update: Mark under review / Resolve / Dismiss
- Resolution note input

SA5

Subscription Override Screen

Contents

- Shop name (pre-filled)
- Current subscription status and expiry
- Override: extend by N days / change plan / grant free month
- Override reason (required)

Flow

- Apply: subscription updated, shop notified
- Logged with `override_by_admin = true`

SA6

Association Admins Screen

Contents

- List: name, district, state, phone, status (active/inactive), created date
- Add association admin button

Actions

- Tap: view/edit
- Toggle active/inactive

- Full name, phone (becomes login), temporary password
- District selector, state selector, organisation name

Flow

- Submit: user created (role = association_admin)
- SMS sent with login details
- Success: Association admin created for [District]

SA8**Announcements Screen****Contents**

- List of past announcements: title, audience, date, active status
- Create announcement button

SA9**Create Announcement Screen****Contents**

- Title input, body text area
- Target: All users / Shop owners / Customers / Specific district
- Send as push notification toggle
- Publish immediately or schedule date/time

SA10**GST Verification Log Screen****Filters**

- Date range, status (All/Passed/Failed/API error)

Log table

- Date/time, shop name, GST number, status, API response summary

Actions

- Export to CSV

7 — Cross-Role Flows

4 journeys that span multiple roles

Flow A — Full Vehicle Sale Journey

Shop Owner (SH4): Mark vehicle as sold, enter customer phone

- Sale record created — status: awaiting customer confirmation
- Customer receives push: Confirm your purchase of [Make Model]
- Customer (C12): taps notification, sees Confirm / Not me prompt
- Both confirm: sale counted, shop sale count +1
- If count reaches 5: Verified Badge awarded automatically
- RC Transfer Tracker auto-created (SH11 / C12)
- Shop owner updates stages, customer watches read-only progress
- Scheduler checks for stuck stages daily, sends reminders at 7 days

Flow B — Premium Boost Discovery

Shop owner subscribes to Premium (SH10)

- Subscription activated: subscription.activated event published
- Search Service re-orders: Premium vehicles appear first in results
- Notification Service pushes to customers in same district: New [Make Model] listed
- C1 Browse: Featured near you section shows premium shop vehicles
- Customer taps notification: C2 Vehicle Detail Screen

Flow C — Review Eligibility Check

Customer views vehicle (C2), clicks Enquire (C6)

- Enquiry thread created in enquiries.threads
- Customer visits shop profile (C4): Write a review button now visible
- Customer taps Write a review (C10)
- Review Service checks: enquiries.threads row exists for this customer + shop? YES
- Customer submits review: visible on shop profile for all

Flow D — Subscription Expiry Impact

Scheduler (daily 8 AM): finds subscription with period_end < NOW()

- subscription.expired event published
- Shop Service: adds Inactive Shop label, disables enquiry button
- Search Service: removes shop vehicles from search results
- Customer views shop (C4): sees amber inactive banner, enquire disabled
- Shop owner (SH10): sees red Subscription expired banner
- Shop owner renews via Razorpay: subscription.activated event
- Shop Service: removes inactive label
- Search Service: re-indexes shop vehicles

8 — Screen Inventory

Complete list of all 45 screens

Customer Screens
